Safety Instructions

WARNING

- Do not open this device, there is no user-serviceable parts inside. Risk of electric shock.
- Do not look at the light source when the device is on.
- **CAUTION:** This unit's housing may be hot during and after operation.
- Install this device in a location with adequate ventilation, at least 20 inch (50 cm) from adjacent surfaces.
- Do not leave any flammable material within 50 cm of this unit while operating or connected to power.
- Use a safety chain when mounting this device overhead.
- Do not operate this device outdoors or in any location where dust, excessive heat, water, or humidity may affect it.
- Do not operate this device if the housing, lenses, or cables appear damaged.
- Do not connect this device to a dimmer or rheostat.
- **ONLY** connect this device to a grounded and protected circuit.
- **ONLY** use the hanging bracket to carry this device.
- In case of a serious operating problem, stop using immediately.
- The maximum ambient temperature is 104° F (40° C). Do not operate this device at higher temperatures.

Power Input & Power Linking

This device has an auto-switching power supply work with input voltage range of 100~240 VAC, 50/60 Hz.

Link up to the maximum 8A. DO NOT exceed this.

Fuse Replacement

If the fine-wire fuse of the device fuses, only replace the fuse by a fuse of same type and rating.

Before replacing the fuse, unplug mains lead.

Procedure:

Step 1: Unscrew the fuse holder on the rear panel with a fitting screwdriver from the housing (anticlockwise).

Step 2: Remove the old fuse from the fuse holder.

Step 3: Install the new fuse in the fuse holder.

Step 4: Replace the fuse holder in the housing and fix it.

Product Installation

This device can be mounted in many orientations provided each individual device is secured by the use of correct mounting bracket.

Use a safety chain when mounting this device overhead.

CONTROL BOARD OPERATION

Display	Options / Values	Function
1.DMX Address	<001> - <512>	Set DMX address
2.DMX Channel	<01> <02> <03> <4CW> <4WW> <08> <11> <12> <User>	Select DMX channel mode
3.Dim Mode	<01> <02> <03> <04> <05>	Select dimmer curve
4.DMXLoss	<Hold><Blacko><Manual><Auto>	Select mode when DMX loss
5.UserDMX	CH:<01> End	Edit a user DMX mode
6.Static Color	R, G, B,C,W, RG, GB, RB, RGB...	Select static colour
7.Manual Color	R<000> - <255> G<000> - <255> B<000> - <255> CW<000> - <255> WW<000> - <255> Dim<000>- <255> Str<000> - <100>	Set intensity of each colour separately for color mixing and strobe rate
8.Manual White	WT<01>-<11> Dim<001>-<100>	Set intensity of 11 whites
9. Auto Program	<Pr01> - <Pr16> Sp<000> - <100> Dim<000> - <255>	Select built-in automatic programs, auto run speed and dimmer level
10.Sound Mode	<Sen:000> - <Sen:100>	Select sound active mode and the sensitivity level from Sen:<000> to Sen:<100>
11.Master/Slave	<M> <S>	Select Master/Slave modes
12.Temp	Temp< xxx °C>	Indicate the current temperature of the driver PCB (Celsius degree)
13. Wireless	<ON><OFF> <EL Mode> <W-DMX_R> <W-DMX_T>	You need to install WDMX module inside the fixture first and then receive the DMX signal from the transmitter attached to the console by setting this on
14.Update	<N>/<Y>	Select to update firmware
	<START>	Use this fixture to update another fixture's software
15.ReSet	<N>/<Y>	Recover manufactory default

DMX address

After select the "DMX Address" and press "Enter", then use "Up" and "Down" to set the desired DMX address, press "Enter" again to confirm.

DMX Channel

After select the "DMX Channel" and press "Enter", then use "Up" and "Down" to set the desired DMX mode, press "Enter" again to confirm.

Dimmer Mode

After select the "Dimmer Mode" and press "Enter", then use "Up" and "Down" to set the desired dimmer curve, press "Enter" again to confirm.

DMX Loss

Give users the ability to set what they want as the DMX Loss.

- By Standard ,out of the box, if in DMX mode and no signal = hold along with, if receiving DMX signal and loss = hold last signal

- Give users the ability to select, call on the menu DMX Loss then let users choose Hold (hold last signal), Blackout, Manual (last manual colour) or Auto (last Auto show selected) -

User DMX

Under this item, you can essentially pick a channel and assign a function of the DMX mode.

So for example, once 'User DMX' is selected, you can click through the channels so by default it may be the max amount of channels allocated, then you can re-arrange as you please and once you are finish, put an option to have the last channel 'End' so that it stops. Say you want 10 channels, the 11th channel would be End. making it a 10 channel user mode. Then to select this mode, under DMX Channel mode it would just be 'User'.

Set Static Colours

Mode:	Value:	Function:
Static Color	Static color <R>	Red
	Static color <G>	Green
	Static color 	Blue
	Static color <C>	White
	Static color <W>	Warm White
	Static color <RG>	Red + Green
	Static color <BG>	Green + Blue
	Static color <RB>	Red + Blue
	Static color <RGB>	Red + Green + Blue

Entered "Static Color", you can select the desired solid color via the "Up" or "Down" buttons, then "Enter" to confirm.

Manual Colour mode

Entered "Manual Color" mode, use "Up" and "Down" button to select the each colour RGBWS intensity from 000 to 255, select strobe (S) speed from S000 to S100. (S000 is strobe off). Press "Enter" to save new setting.

Manual White mode

Entered "Manual White" mode, use "Up" and "Down" button to select each white intensity from 000 to 255. Press "Enter" to save new setting.

Automatic Mode

Pr 01	Auto Run 1
Pr 02	Auto Run 2
Pr 03	Auto Run 3
Pr 04	Auto Run 4
Pr 05	Auto Run 5

Pr 06	Auto Run 6
Pr 07	Auto Run 7
Pr 08	Auto Run 8
Pr 09	Auto Run 9
Pr 10	Auto Run 10
Pr 11	Multi fixture chases 1
Pr 12	Multi fixture chases 2
Pr 13	Multi fixture chases 3
Pr 14	Multi fixture chases 4
Pr 15	Multi fixture chases 5
Pr 16	Multi fixture chases 6 (1-5 combination)

Set auto run Pr01 – Pr10

Entered "Auto Program" mode, use "Up" and "Down" button to select the built-in programs. Press "Enter" and use "Up" and "Down" button to select auto run speed from <Sp000> to <Sp100>. Press "Enter" and use "Up" and "Down" button to select dimmer of "Auto Program" from <dim000> – <dim255>. Press "Enter" to save new setting.

Set multi fixture chases Pr11 – Pr16

Before starting, go to each fixture and reset the menu to fixture defaults.

1. On the master unit, setup the DMX address to the total number of fixtures in the string. For example, you may have a total of 20 PANs including the master, so the DMX address should be set to "20".
2. On the master unit, go to master/slave menu setting and set the unit to master
3. On the master unit, set the unit to "Auto Mode" <Pr11> - <Pr16> which supports multi fixture chases.
4. On each slave unit, setup the DMX address to the fixture position in the string. For example, if this unit is the 2nd unit in the string including the master, then set the DMX address to 2. If this the last unit of 20, then the DMX address should be set to 20. It is possible to double up fixture positions as well as fixture 1.
5. On each slave, go to the master/slave menu setting and set it to slave.

Sound Mode

After select the "Sound mode", use "Up" and "Down" to set the sound sensitivity Sen 000 ~ Sen 100, press "Enter" to confirm.

Master/Slave Operation

1. Set the master fixture to one of the standalone operating modes: auto, sound, static color or manual color modes
2. Set the slaves, entered "Master/Slave" mode, set to "S", press "Enter"

Temperature

Select "Temp", the screen displays the current temperature of the fixture automatically.

Firmware update

Use fixture A to update fixture B's firmware

- Set fixture A to "Update" mode, select "Y" then select "START"
- Link fixture A and fixture B with DMX cable, then power up fixture B
- Press "Enter" on fixture A, fixture B's firmware will be copied from fixture A.

*Ensure that fixture A and B are of the same type, otherwise damage may occur.

* Only fixture A and B should be in the DMX chain when updating firmware.

Reset

To recover factory default, select the "Reset" and press "Enter", then use "Up" and "Down" to choose "Yes", press "Enter" again to confirm to recover manufactory default

DMX CHARTS

1 channels mode

Channel	Value	Function
1	000-255	dimmer 0% ~ 100% (dim the preset color selected in Menu)

2 channels mode

Channel	Value	Function
1	000-255	Warm white to cool white
2	000-255	Dimmer 0% ~ 100%

3 channels mode

Channel	Value	Function
1	000-255	Red: 0% ~ 100%
2	000-255	Green: 0% ~ 100%
3	000-255	Blue: 0% ~ 100%

4CW channels mode

Channel	Value	Function
1	000-255	Red: 0% ~ 100%
2	000-255	Green: 0% ~ 100%
3	000-255	Blue: 0% ~ 100%
4	000-255	White: 0% ~ 100%

4WW channels mode

Channel	Value	Function
1	000-255	Red: 0% ~ 100%
2	000-255	Green: 0% ~ 100%
3	000-255	Blue: 0% ~ 100%
4	000-255	Warm White: 0% ~ 100%

5 channels mode

Channel	Value	Function
1	000-255	Red: 0% ~ 100%
2	000-255	Green: 0% ~ 100%
3	000-255	Blue: 0% ~ 100%
4	000-255	White: 0% ~ 100%
5	000-255	Warm White: 0% ~ 100%

8 channels mode

Channel	Value	Function
1	000-255	Red: 0% ~ 100%
2	000-255	Green: 0% ~ 100%
3	000-255	Blue: 0% ~ 100%
4	000-255	White: 0% ~ 100%
5	000-255	Warm White: 0% ~ 100%
6	000-255	Dimmer Coarse
7	000-255	Dimmer Fine
8	000-015	No function (Shutter On)
	016-119	Strobe Slow -> Fast(1-25HZ)
	120-127	No function (Shutter On)
	128-183	Strobe Random Slow -> Fast
	184-191	No function (Shutter On)
	192-247	Strobe Audio sensitivity low -> high
	248-255	No function (Shutter On)

11 channels mode

Channel	Value	Function
1	000-255	Red: 0% ~ 100%

TECHNICAL SPECIFICATIONS

Power

- Input Voltages: 100V~240V AC,50/60Hz
- Power Consumption: 60W
- Power Connection:Seetronic Power Input and Output Connection
- Fuse: T 1 A, 250 V

Photometrics

- Light Source: 2 pcs 40W RGBVW(White 6000~6700k , warm White 2620~2780) COB LEDs
- Beam Angle: 40°
- Field Angle: 60°
- Output: 1066 lux @2.0 M RGBWS full on
- PWM: 1200 Hz
- LED Life: 50,000 hours

Effects

- Dimming: 5 16bit digital Dimming Curves
- Strobe: 1 - 25 Hz

Control

- Operational Modes: Static, Color Fade, Auto Program, Sound Active, Multi Fixture Chases, Master / Slave & DMX Modes,RDM, WDMX(Optional)
- Display: 4-button LCD Display Control Panel
- DMX Protocol: DMX512
- DMX Channel Mode: 1 / 2 / 3 / 4CW / 4WW / 8 / 11 /12
- DMX Interface: 5-Pin (Optional 3-Pin XLR)
- Software Upgrade via DMX: Yes

Housing

- Housing Materials: Aluminium Housing
- Housing finish: Matte Black
- Cooling: Fanless Cooling
- Dimension: 213 x 168 x 197 mm
- Net Weight: 2.5 kg

WARRANTY
