EVENT LIGHTING

Event Lighting was established in 2013 with a vision to supply professional entertainment lighting products to the Australian market without compromise.

Initially offering great value par fixtures that have earned a reputation of outstanding output and reliability, Event Lighting has expanded to include a diverse range of products in lighting, staging, trussing and rigging.

Event Lighting is proudly Australian owned and has partnered with numerous factories in China in order to further product development and maintain quality and consistency of the product ranges. Our relationships with the factories ensure we can offer the best quality products at reasonable price points while having our own staff in China ensures a high level of quality control and logistical arrangements.

Our growing international presence sees Event Lighting products reaching North America, South East Asia, China, Spain and New Zealand.

POWER TRUSS

Introducing the Power Truss — a game-changing innovation designed to streamline your rigging and power distribution. Featuring dedicated TrueOne input and output ports, it ensures seamless power delivery to your fixtures, while integrated 5-Pin XLR connectors enable effortless data transfer between lights and controllers.
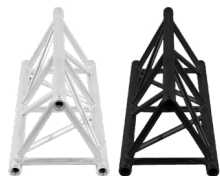

Engineered for simplicity and efficiency, the Power Truss incorporates a single input for both power and data, with two outputs per meter of truss — plus an additional output for easy expansion to subsequent sections.

EVENT STRUCTURAL
EVENT STRUCTURAL

With professional engineers and building design practitioners registered in multiple states throughout Australia, Event Structural can assist you with your design to ensure it is safe and practical.

Event Structural possesses extensive expertise and experience across a wide spectrum of Structural, Civil, and Geotechnical engineering. We offer comprehensive design and construction services that encompass trussing, staging, and both temporary and permanent structures.
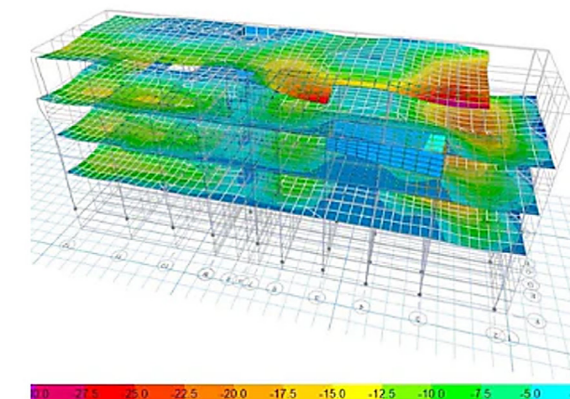

We provide the following services:

- Structural/Engineering Analysis, Report and Certification
- Building Code of Australia Compliance Certification
- 3-Dimensional Structures/BIM Design
- Structural Engineering Consultancy
- Risk Analysis and Management
- On-site Inspections

TEMPORARY STRUCTURE SYSTEMS
For customers designing a one-off structure and only require certification for one (time), customers can purchase a "One-off" certificate to validate their structures.

For customers who are needing repeat uses of an identical design over multiple sites, the 1-Year Subscription allows customers to receive as many certifications per design within a 12-month period. The 1-Year Subscription is valid in areas of New South Wales, Queensland, Victoria, Northern Territory and the Australian Captial Territory (ACT).

Analysis Report

We offer analysis reports for Simple Structures, Median Structures and Complex Structures to ensure the safety and practicality of your project.

Certificate - One-off

We offer One-off structural certification for Simple Structures, Median Structures and Complex Structures to validate your project plan to council and/or project organisers.

Certificate - Subscription

We offer a 1-Year Subscription for structural certification of Identical Simple Structures, Median Structures and Complex Structures.

TYPES OF STRUCTURES

Simple Structure

Single facet structure. Such as single upright, single hanging truss.

Median Structure

Simple-multi facets structure. Such as stage with roof.

Complex Structure

Any structure not covered in the simple and median structure.

Custom Structures

Custom Structures such as Public Artwork can be quoted upon request.truss.

JDP KYRA SERIES

JDP GROUP CONTROLLERS

JDP is a German-engineered stage hoist brand focused on durable, safe, and reliable lifting solutions for stage performances. JDP's products are built to minimize risks, so crews can focus on delivering great shows without safety concerns.

Every project has different needs. JDP delivers customized hoisting solutions with quick turnaround times, ensuring the right fit for technical requirements and budget.

German engineering. Proven reliability. Safety you can trust.

FOR FIXED INSTALLATION

Wharfedale Pro

DP-4035i   4 x 765 W

DP-8015i   8 x 150 W

SoundKing is recognized for its durable, versatile, and modern-designed stands, cables, and accessories, trusted by professionals for events worldwide.

From intimate performances to large-scale productions, SoundKing offers a comprehensive product range designed to deliver reliable, high-quality audio solutions for any event.

DP-4035i

Installation Amplifier with GPIO functionality

- 4 channels
- 8 Ohm 4 x 450 W
- 2 Ohm 4 x 765 W
- 16 Ohm Bridged 2 x 900 W
- 100 V Hi-Z 4 x 765 W
- Weight: 8.4 kg

DP-8015i

Installation Amplifier with GPIO functionality

- 8 channels
- 8 Ohm 8 x 150 W
- 2 Ohm 8 x 150 W
- 16 Ohm Bridged 4 x 300 W
- 100 V Hi-Z 8 x 150 W
- Weight: 6.0 kg

SB600
Doublespeaker Mount

- Compatibility: 35mm pole speaker stands
- Max Load: 2 × 25 kg (50 kg total)
- Adjustable Width: 360–510 mm
- Materials: Steel frame, plastic knobs
- Weight: 1.5 kg

SB500
Tripod Telescopic Speaker Stand

- Height: 1040-1720mm
- Load capacity: 45kg
- Material: Steel
- Weight: 3.8Kg

SB800
Tripod Pneumatic Speaker Stand

- Height: 1155-1815mm
- Load capacity: 60kg
- Material: Carbon steel
- Box size: 130x130x1155mm
- Weight: 5.4Kg

SB310 / SB311
Pneumatic Subwoofer Pole

- Suit: 35mm Socket / M20 Thread
- Height: 800-1340mm
- Load capacity: 50kg
- Material: Aluminium
- Box size: 95x75x860mm
- Weight: 2kg

SB318
Pneumatic Speaker Stand with Square Base

- Height: 1100-1800mm
- Load capacity: 15kg
- Material:
  -Stand: aluminum
  - Base: cold-rolled steel
- Weight: 11.5kg

NICOLAUDIE GROUP

NICOLAUDIE ARCHITECTURAL

Nicolaudie is the inventor and industry leader of the computerized lighting controller concept.

In 1987, they designed the world's first computerized lighting controller for Amiga computers. For more than 30 years Nicolaudie Group has developed pioneering software and hardware dedicated to lighting control.

DINA-NASPLIT-4

DIN Rail Mounted DMX Splitter

* Input: 1x isolated input
* Output: 4x isolated output
* Thru: 1x passive loop output
* RDM: Yes
* Power: 12-48 VDC

DINA-DRMICRO

DIN Rail Mounted Set and Forget Lighting Controller

* Number of scenes: 10
* Number of zones: 1
* Power voltage: 5-5.5V DC
* Power connector: USB

DINA-DR2 / DR2LITE

DIN Rail Mounted Lighting Controller
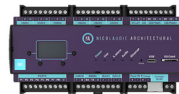

* Number of scenes: 99
* Number of zones: 5
* Power voltage: 8-15V DC
* Ports: 8+3
* Output channels: 1024 / 512
* Power connector: Screw terminal

DINA-DR1 / DR1LITE

DIN Rail Mounted Lighting Controller

* Number of scenes: 2000
* Number of zones: 20
* Power voltage: 8-15V DC
* Ports: 8+4 / 8 + 2 +2 (optional)
* Output channels: 3072 / 1024
* Power connector: Screw terminal

NATOUCH-4

Wall-mounted touch screen for

* Input power: POE IEEE802.3af 100-200V 50/60Hz
* OS: Android
* Connections:
  - USB-C
  - Ethernet/POE
  - Wifi 802.11b/g/n
