

LM75

75W LED Spot Moving Head

USER MANUAL

For safety, please read this user manual carefully before initial use.

Event Lighting reserves the right to revise the manual at any time. Information and specifications within this manual are subject to change without notice. Event Lighting assumes no liability or responsibility for any errors or omissions. Please consult Event Lighting for any clarification or information regarding this item.

V2.1 (2 November 2020)

Safety Instructions

WARNING

- Do not open this device, there is no user-serviceable parts inside. Risk of electric shock.
- Do not look at the light source when the device is on.

CAUTION: This unit's housing may be hot during and after operation.

- Install this device in a location with adequate ventilation, at least 20 inch (50 cm) from adjacent surfaces.
- Do not leave any flammable material within 50 cm of this unit while operating or connected to power.
- Use a safety chain when mounting this device overhead.
- Do not operate this device outdoors or in any location where dust, excessive heat, water, or humidity may affect it.
- Do not operate this device if the housing, lenses, or cables appear damaged.
- Do not connect this device to a dimmer or rheostat.
- ONLY connect this device to a grounded and protected circuit.
- ONLY use the hanging bracket to carry this device.
- In case of a serious operating problem, stop using immediately.
- The maximum ambient temperature is 104° F (40° C). Do not operate this device at higher temperatures.

Power Input

This device has an auto-switching power supply work with input voltage range of 100~240 VAC, 50/60 Hz.

Fuse Replacement

If the fine-wire fuse of the device fuses, only replace the fuse by a fuse of same type and rating. Before replacing the fuse, unplug mains lead.

Procedure:

Step 1: Unscrew the fuse holder on the rear panel with a fitting screwdriver from the housing (anticlockwise).

Step 2: Remove the old fuse from the fuse holder.

Step 3: Install the new fuse in the fuse holder.

Step 4: Replace the fuse holder in the housing and fix it.

Product Installation

- This device can be mounted in many orientations provided each individual device is secured by the use of correct mounting bracket.
- Use a safety chain when mounting this device overhead.

The device is controlled by universal DMX 512 protocol, DMX address is the start channel used to receive instructions from the external controller. For independent control, each fixture must be assigned its unique address control channels. For example, this device has two channel modes: 13/11, if we set the mode at standard 13 channels mode, and there are several models need to be independently controlled, we just simply address first fixture at 1, and second fixture at 14, third one at 27, etc.

- If the devices have the same address, they will behave synchronically.
- Display is flashing when no DMX signal is received.

More Functions

- Software upgrade function via DMX cable. If there is any new firmware for this device, it can be upgraded simply via a software upgrade box, without the need to change any mechanical parts. The upgrade box is not included in the package, if you need any further assistance please contact your authorized dealer.
- Hibernation. The device will enter sleeping mode if activated after a period of disconnecting DMX signal to save power and will wake immediately when the DMX signal is sent or received again.

Technical Specifications

Photometrics

- Light Source: 75W White LED
- Beam Angle: 13.5°
- Output: 10215lux @ 2.5M
- PWM: 1470Hz
- LED Lifespan: 50,000 hours

Colour

- 1 colour wheel (8 colours + open)

Gobo

- 1pc 6 patterns + open rotating wheel (outside Ø18mm, inside Ø14mm).

Effects

- 3-facet prism
- Dimming: 0~100%
- Strobe: 0.6~25 Hz
- Focus: 3-30m, Linear via DMX

Movement

- 8 / 16 – bit, Auto-reposition
- Pan: 360°/540°/630°
- Tilt: 90°/180°/270°
- Limit mode: centre/corner/edge

Power

- Input Voltage: 100~240V AC, 50/60 Hz
- Power Consumption: 110W
- Connection: Powercon in
- Fuse: T2A, 250V

Control

- Protocol: DMX512
- Operation Modes: DMX, auto, manual, sound active, master/slave
- DMX Channels: 13 / 11
- Interface: 3-pin XLR in & out
- Built-in Programming: Yes
- Sound Active: Yes
- Display: 4-button 1.44 inch LCD display control panel
- Cooling: Fan

Housing

- Materials: Metal & Flame retardant ABS
- Finishing: Matte black
- IP rating: IP20
- Net Weight: 4 kg
- Rigging: 1x omega bracket with ¼ turn quick locks.

Warranty
