A5C+ Calibration Technology

Enhanced Screen Uniformity

Energy-saving Technology

Efficient Energy-Saving

Innovative Structural Design Concept

Experience the next level of LED displays with Absen's unique triangular design. Our technology ensures unmatched stability, safety, and reliability, making every display stand out regardless of the setting. With the versatility of our 3+1+1 configuration, we make inventory management seamless for our esteemed clientele. Choose Absen and revolutionize your visual storytelling.

A5C+ Calibration Technology

Absen

Dive into a visual spectacle with Absen's K V3 series powered by A5C+ technology. Experience unparalleled screen harmony, true-to-life colors, and captivating imagery that comes to life.

A5C+ Calibration Technology

Amazing Color Management Technology

Absen

Step into Absen's realm of unmatched color brilliance. With our cutting-edge color tech, expect colors that resonate deeply, pristine clarity, shadows with depth and subtlety, and unrivaled accuracy in every shade.

3840Hz

High Refresh Rate

4500: 1

High Contrast Ratio*

14bit

High Grayscale*

*K1.5 V3 contrast ratio: 4000:1, K2.5/K3.9 V3 contrast ratio: 4500:1

Dual Brightness Configuration

Select the perfect brightness for your environment: Opt for our Standard mode with a luminance of up to 700nits or elevate your experience with the High Brightness mode, boasting a radiant 2500-3000nits.

700nits Normal Brightness Version
For indoor use in brand chain stores, shopping mall, etc.

2500-3000nits High Brightness Version
For scenarios severely affected by ambient light, such as shopping mall exterior windows, etc.

*K1.8 V3 high brightness version: 2500nits, K2.5/K3.9 V3 high brightness version: 3000nits

Anti-Blue Light and Anti-Radiation

Absen

Experience visual comfort with Absen's TÜV Rheinland-certified displays, meticulously designed to reduce harmful blue light. Paired with our Class B electromagnetic standards, immerse yourself in a seamless and health-conscious viewing journey.

Low Blue Light

- TÜV Rheinland low blue light certification
- Protecting eyes from high-energy short-wave blue light

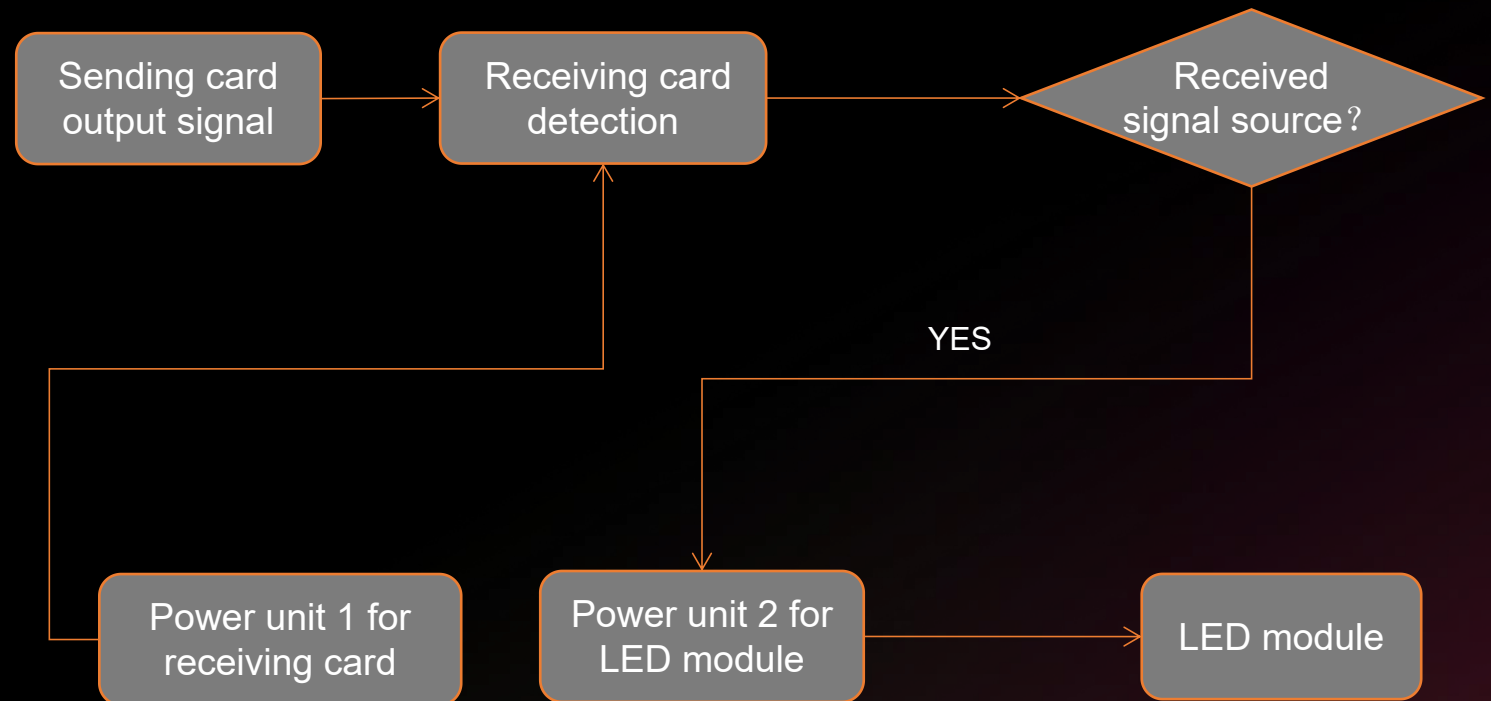

EMC Class B

- Civil use level
- Prevent harm to the human body caused by excessive electromagnetic radiation

Efficient Dynamic Energy-Saving Technology

Elevate your eco-journey with our displays' smart black-screen technology. Seamlessly optimizing power consumption, they intuitively shift to an energy-saving mode, merging sustainability with cost efficiency.

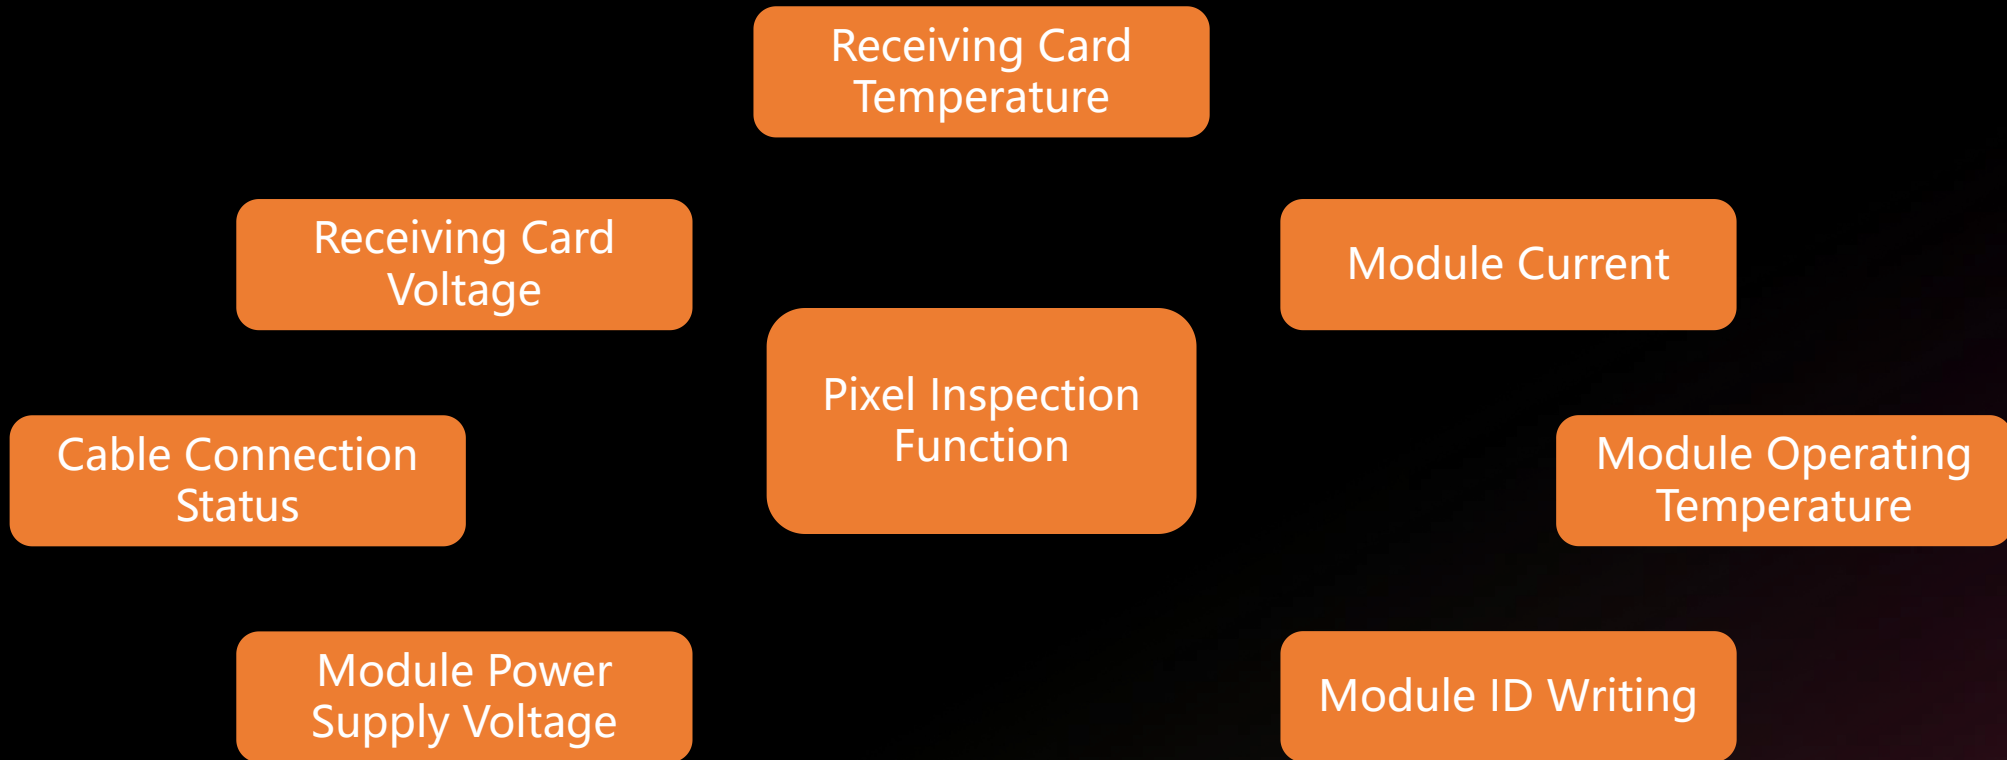

Energy Saving 40%~55%

Standby state

Remote Monitoring, Cluster Management

Elevate your display experience with smart module options. Enhance efficiency and gain real-time insights into your product's performance. Stay in control and effortlessly manage any situation with ease.

Lightweight Design

absen

Experience our sleek panel, measuring just 39.5mm in thickness and boasting a lightweight design at 25kg/m².

39.5mm
Ultra-thin design

25kg/m²
Ultra-lightweight

Wireless Connectivity Design

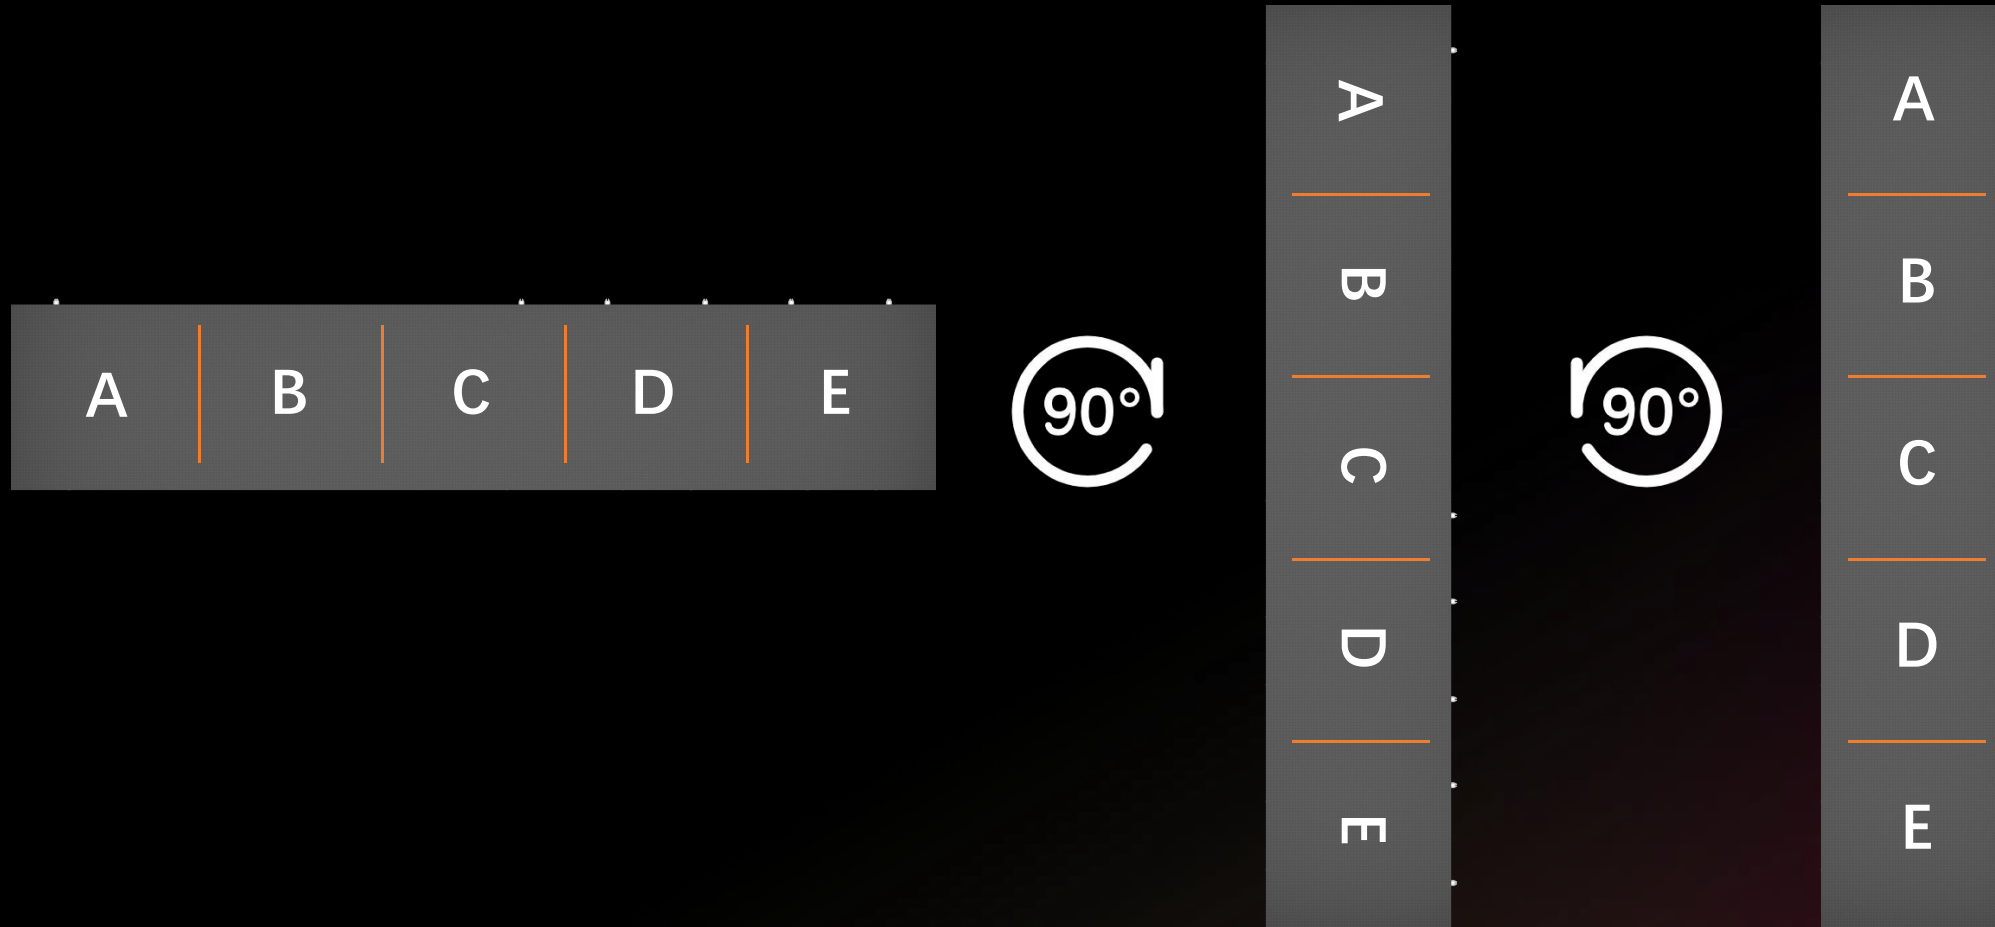

Dive into seamless connectivity with our wireless connector innovation. Eliminate cable chaos and relish in swift setup and takedown.

- Wireless Design Inside the Panel

Rotatable Installation for Panels

Experience limitless design possibilities with Absen's adaptable rotating cabinet. Craft breathtaking visuals that align with your vision, enhanced by our module's seamless 90° rotation. Dive into a world of unbroken, captivating displays with Absen.

*Based on the back of the panels, after rotation, the smaller panels remain at the top of the main panel.

Flexible Assembly, Convenient Connectivity

Enjoy seamless assembly with our intuitive clockwise module setup and customizable cabinet connectors.

- During installation, modules effortlessly turn 90° clockwise, while the wireless connectors smoothly align with the module's surface.

- Design engineered for reliability, safeguarding against module short circuits.

Flexible Splicing

Unleash your creativity with our product's exceptional adaptability. Discover endless opportunities for your concepts, seamlessly fitting any environment.

90° Rotational Installation

Experience the flexibility of our cabinet supports with a rotational setup. Ensure your smaller cabinets are securely positioned on top during vertical installations.

Anti-Collision Lamp Design

Introducing the K V3 series: Engineered with a unique anti-bump lamp mechanism, it shields the LED beads from damage during transit and regular usage, ensuring superior durability and steadfast performance.

- Lamp design featuring a protective raised structure for anti-bump resilience.

Magnetic-Free Solution

Transform your viewing with our non-magnetic technology. Experience pristine clarity that stands the test of time.

*Non-magnetic solutions are optional.

Magnetic-Free Solution

Experience unmatched clarity with our non-magnetic technology. Revel in a pristine display that stands the test of time.

- Non-magnetic Structural Design

- Standard Magnetic Module (With noticeable screen imperfections)

- Streamlined Non-Magnetic Design Module - Ensuring a Pristine Display

Graceful L-Shaped Splicing

Unveiling our product with a signature right-angle and column aesthetic, transforming spaces with a visual allure that demands attention.

● L-Shaped Corner Display

● Wrapped Column Diagram

Versatile Assembly for Any Shape

K1.8 V3 and K2.5 V3 support the combination of soft and hard module splicing, allowing for limitless creative possibilities and effortless creation of your unique display forms.

- Soft and Hard Modules Splicing

Sleek and Artistic Curves

Unleash endless creativity with K1.8 V3 and K2.5 V3! Seamlessly merge soft and hard modules to effortlessly craft your distinct display masterpiece.

Elegant, Ultra-Thin Trim Pieces

Experience elegance like never before with our Ultra-Thin Bezel Design*. Its innovative configuration conceals side wiring, elevating your screen's sophistication to unparalleled heights.

Service Time (GMT+8)

24/7 Online Customer Service

Absen Service Philosophy

Initiative. Efficient. Standardization. Thoughtfulness.

Initiative

Offering proactive care, follow-up visits, and regular inspection services for our valued customers.

Efficient

All service channels guarantee a 10-second response time, utilizing intelligent algorithms to connect you with the most suitable local service resources, ensuring a swift and efficient service experience.

Standardization

A robust service engineer training system, including ACE professional training and certification, along with ACP professional certification. Additionally, we create and maintain comprehensive product files for our customers, meticulously recording the entire service process.

Thoughtfulness

Extended warranty for peace of mind and uncompromising quality assurance.

Parameters

参数		K1.5 V3	K1.8 V3	K2.5 V3	K3.9 V3
Physical Parameter	LED type	Black SMD1212	Black SMD1515	Black SMD1515	Black SMD2121
